How to have a cat

You should always keep a cat indoor. You also need the following things at hand, cat food, toilet, cat sand, a nail file, and so on. Although it's easy to take care of your cat's health if you keep it indoor, it's sometimes dangerous for a cat to get into a balcony or a bathroom.

Obligation of a cat owner

- Keep a cat until the end.
- Put a ID tag on a cat.
- Control breeding.
- Penalty will be given if you abuse a cat.

Obligation mentioned above is based on Act on Welfare and Management of a cat.

Breeding Expense

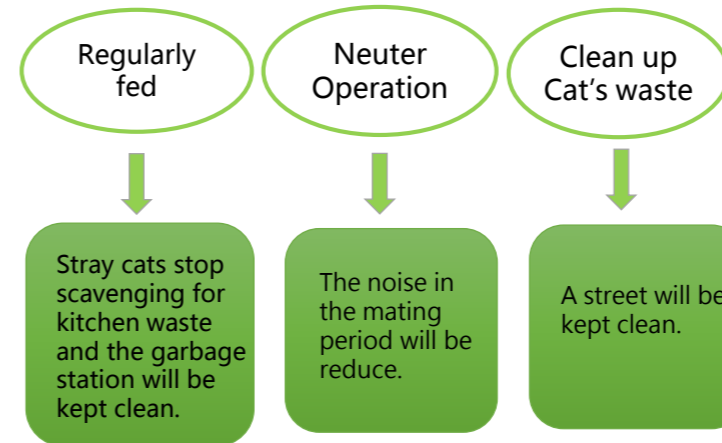

Monthly cat food may cost around ¥3,000. On the top of that, you have to pay for cat sand, medical fee such as vaccine, a nail file and so on. You must be ready to pay certain amount of money to have a cat as your pet.

A Community Cat

A community cat is different from a stray cat. It's a cat living in a community without an owner. People in the community get together and take care of those cats jointly. They feed them, clean them and even give them a neuter operation. They also take a time to reduce and control the number of cats in the community.

The goal of this activity is to make people and cats coexist peacefully.
